Perfume Art Creation Zollikerberg  
Sennhofstrasse 21  
8125 Zollikerberg (Zürich)  
Switzerland

## LE MOT

Perfume Art Creation is a group of art galleries created by Ms Goar Sanfilippo in Zurich in 2018, then in Venice and Paris.

Perfume Art Creation is a project that creates a new spirit of synesthesia and promotes its unique concept of Perfume Art by showcasing emerging and established artists.

Perfume Art Creation is a creative and philanthropic gallery; we present the collections of artists with whom we have developed the project and the creative process.

Each solo exhibition is created for the gallery concept, transforming the artist's talent and distinctiveness.

We steer the artist art into a new branch of contemporary art:

Perfumed Art  
Olfa Opere  
l'Art Parfumé

## Concept © Perfumed Art

The Perfumed Painting is an innovation and Copyright © by Perfume Art Creation in Zollikerberg (Zürich), Switzerland.

Your favourite painting will be infused with your preferred perfume and the scent will welcome you in its own language of Beauty. Your individual fragrance will be introduced into the art.

Perfumed art is promoting a new practice that emerged in 2017 through the first prototypes presented to the public.

It's gaining in popularity in the contemporary art as a unique combination that engages the olfactory sense directly into the painting or the artwork.

The collaborative process between the Artist and Perfume Art Creation is highlighting the creative excellence of the artist, being able to sublimate himself and metamorphose his own style.

2020 Perfume Art Creation took place with the solo exhibitions of the artists, in a 300-year-old traditional Swiss House in Sennhofstrasse 21, 8125 Zollikerberg in Zurich.

2022 Perfume Art Creation Venezia opened in Sestiere Dorsoduro 2408H in Venice.

2023 The Inauguration of Perfume Art Creation Paris took place on July 2023.

All galleries will welcome the public by appointment.

## CINETICO by Ferruccio GARD

Ferruccio Gard (Italy, 1940) is a pioneer and leading artist exponent of neo-constructivist art, programmed art and optical art, which he has been practicing since 1969.

Considered a master of color, Gard's painting creates original formal and compositional solutions of form and color. Exploring geometric composition with chromatic and special themes, Gard captures the complexity of black and white and the extremes of the tonal range of colors.

Gard's work has been the subject of many writers, including Piero Dorazio and Virgilio Guidi, as well as renowned poets and art curators such as Jorge Amado, Andrea Zanzotto and Paolo Ruffilli.

For thirty years (1978-2008), Gard participated in numerous solo and group exhibitions with the neo-constructivist and kinetic art group "Verifica 8 + 1", founded in Venice-Mestre, Italy, by painter Sara Campesan in 1978.

In the 1980s, Gard continued his research into the psychology of visual perception and the theory of form, as well as the relationship between light, space and chromatism. In 1987, he explored the abstractionism of the new geometry and, in the 90s, turned his attention to abstract-informal painting.

Gard attended at over 150 solo exhibitions in numerous cities around the world, including Beijing, New York, Prague, Brussels, Salzburg and Lienz (Osterreich), Remagen and Saarlouis in Germany, Cordoba in Argentina, Venice, Rome, Florence, Milan, Verona, Padua, Turin, Bergamo and Cortina d'Ampezzo. The artist participated in seven editions of the Venice Art Biennale and the 11th National Quadrennial in Rome.

Gard's works have also been exhibited in several international museums, including the National Gallery of Modern Art in Prague, Czech Republic, the National Gallery of Modern Art in Rome, Italy, the Museum of Contemporary Art in Buenos Aires, Argentina, and the Latin American Museum of Contemporary Art in La Plata, Argentina. His work also features in major public and private collections, including the Ca' Pesaro Museum of Modern Art in Venice, Italy, and the Satoru Sato Museum in Japan.

*THE PARTICIPATION OF MAESTRO Ferruccio GARD in this new concept of Perfumed Art as a new branch in the contemporary art is underlining the unlimited talent which is constantly growing, exploring and participating through the creation of the 21<sup>st</sup> centuries art history.*

## CINETICO by Ferruccio GARD
